Lab 2

Class Discussion

- In this lab you have created a simple Chatbot and AI Agent that can use tools, in a few words answer the following questions:
  - Did you encounter any errors while running the provided IPYNB scripts? If yes, share the error messages you got and how you resolved those errors.

  - After you modified and ran the provided IPYNB script as instructed in the instructions document, did you get the correct output? Explain your answer.

  - Share the screenshots of the output you got in the IPYNB scripts that you ran.
